SAFETY TIPS TO AVOID DOG BITES WHEN WORKING WITH CONSUMERS

The Humane Society of the United States urges anyone who sees a dog exhibiting the following behaviors to move to a safe distance:

Pulled back head and/or ears

- Tense body
- Stiff tail
- Wrinkled brow
- Yawning
- Rolled eyes so the whites show
- Flicking tongue
- Intense stare
- Backing away

***Before approaching a dog, experts suggest a worker make noise to alert the dog without startling it. If a person sees a dog sleeping on a porch, for example he or she can give a soft whistle. If you feel threatened ... SAFETY FIRST!! Leave the premise and proceed to a safe place to contact your supervisor.**

Appropriate Attire for Warm Weather

Please NO: Spaghetti Straps or Tank Tops

**No Opened Toed Shoes which means:
No Sandals or Flip Flops.**

Please be sure your shorts are an appropriate length

The Centers for Disease Control (CDC) has recently changed their guidelines on COVID-19.

ILS is following the below guidelines as outlined by the CDC:

People who have Covid-19 should stay home until they've been fever-free without medication for at least 24 hours and their symptoms have been improving for 24 hours. After that, it's fine to resume regular activities. It is recommend that people take additional precautions for the next five days – including improving ventilation, masking and limiting close contact with others – to lower the risk of spreading the virus.

Please practice safety first and don't hesitate to reach out with any questions.

Having Trouble with the HALO LOGIT?!

Then here are some troubleshooting tips that might be just what you need!

1. Log out of the application and sign back in. You won't lose any information entered and it might just be the quick reset you needed.
2. Make sure the application is up to date. You can do this by checking your app store regularly for updates to the Logit app. You can also set it up so that applications will update automatically through your devices settings.
3. Still not working? Try deleting the application from your smart device and re downloading it through you App Store. Once downloaded again, you can log back in with the same username/password and pick up where you left off!
4. Still not working? Remember, you can always give your Staffing Supervisor a call and they will assist you with next steps! **Turning on phone location services may be needed.**
