### Appropriate Attire for Warm Weather

Please NO: Spaghetti Straps or Tank Tops

No Opened Toed Shoes which means:

No Sandals or Flip Flops.

Please be sure your shorts are an appropriate length

## Heat stroke in older adults

This happens when the body heats up faster than it can cool off, like a hot radiator in an overheated car. Older adults are especially vulnerable to developing heat stroke when temperatures are high because of the aging body's decreased capacity to adapt to changes in body temperature.

Heat stroke is a medical emergency and can cause:

high body temperatures (103°F or higher)

dry or damp, hot, red skin

fast, strong pulse

confusion

loss of consciousness

Immediate actions needed for heat stroke:

Call 9-1-1.

Move the person to a cool place.

Cool the body with cold, damp clothing or a cool bath.

Do not give anything to drink until stabilized.

## Having Trouble with the HALO LOGIT?!

**Then here are some troubleshooting tips that might be just what you need!**

- 1. Log out of the application and sign back in. You won't lose any information entered and it might just be the quick reset you needed.**
- 2. Make sure the application is up to date. You can do this by checking your app store regularly for updates to the Logit app. You can also set it up so that applications will update automatically through your devices settings.**
- 3. Still not working? Try deleting the application from your smart device and re downloading it through you App Store. Once downloaded again, you can log back in with the same username/password and pick up where you left off!**
- 4. Still not working? Remember, you can always give your Staffing Supervisor a call and they will assist you with next steps! **Turning on phone location services may be needed.****
